

Notes from our summer PEAK program:

We had a great group of kids from both North Star and Federal Heights this summer. It was amazing to see them interact and make new friends.

We learned about “taking flight” in STEM with wind tunnels, we learned about personal cleanliness and did yoga with Regis students, we had a TON of fun recreation with the City of Thornton, and we did archery with Boy Scouts of America.

We also read 695 books over 6 weeks. It was a great summer full of PEAK fun!!
